

CPA Financial Auditor

Our Leesburg team is recruiting for an individual with audit and financial statement preparation experience who wants to work in an environment where we enjoy working with each other and with our clients. Our value-added approach includes financial reporting at all levels from audit to preparation for corporations and not-for-profit organizations. Additional services we offer include tax preparation and planning, business and organization consulting, accounting and client support services.

Individuals must have a minimum of 1 to 3 years of financial statement audit experience handling complex GAAP and GAAS requirements, independently or in a team, for business and not-for-profit clients. Thorough experience in developing financial reports and audit compliance is desirable. A bachelor's in accounting, finance or equivalent is recommended. The ideal candidate should be a certified public accountant (CPA) or certified internal auditor with excellent organizational and client service skills and the ability to effectively manage multiple client engagements. Individuals must be good or great with technology and able to work in the United States without visa sponsorship.

We cherish our team environment and offer flexible and remote work schedules to accommodate the needs of our team members. Competitive salaries correlate with experience. Our benefits are generous.
